

Time is running out. The regular legislative session ends this Friday, April 5. We need to turn up the heat if we're going to pass KanCare expansion this session.

Here are 3 easy ways to get involved:

1. Call your Senator and demand they allow a vote on KanCare expansion. [Find your Senator here.](#)
2. Continue to thank House members who are already with us. [Here is the full list of Representatives who voted YES on HB 2066.](#)
3. Attend legislative events in your area and ask your representatives to pass expansion this session. [Find events here.](#)

Last week, we filled the Capitol and made our collective voice heard. The very next day, the House passed HB 2066 to expand KanCare to 150,000 hardworking Kansans.

Your advocacy makes a difference. Call your Senator now and tell them: Let democracy work. Allow a vote on KanCare expansion.

When you show up at events, write an email or make a call, change happens. When you share your story, you inspire others to take action. You build influential networks. And most importantly, you move the needle in the Statehouse.

We need as many as people as possible to join us in telling Legislators that our state is counting on them to increase access to life-saving health care, bring millions of our federal dollars back home and protect our vulnerable hospitals. It's more urgent than ever that we compel the Legislature to do the right thing. We can't stop now.
