

## DEMAND THE LEGISLATURE EXPAND KANCARE IN 2019

The Alliance for a Healthy Kansas says...

We're just a few weeks into the 2019 legislative session and already there's been incredible progress on KanCare expansion. Gov. Kelly has introduced a bill and the news has been chock full of stories about the increasing momentum for expansion.

One of the best ways we can keep pushing forward is to let our elected representatives know how important KanCare expansion is to our communities, our hospitals, our businesses and our families. With 150,000 working Kansans in the health insurance coverage gap, there's too much at stake to stay quiet. We've got to speak up!

So please continue to urge your legislators to support KanCare expansion to boost our economy, create jobs and insure more Kansans. They need to hear from you directly. Here are some good ways to ensure your voice is heard:

- Call your Senator and Representative (<https://ksleglookup.org/>)
- Check our events page for a public forum in your community (<https://www.expandkancare.com/events/>)
- Sign the petition to support expansion (<https://www.expandkancare.com/a/demand-topeka-prioritize-h.../>)

PS: Please contact us if you hear of a legislative forum in your area so we can share the information on our events page and with others in your community.
